

Endoscopy Disposables
Safety · Innovative · Quality · Performance

SML Med-Tech Solutions

SML Med-Tech Solutions Limited is located in Hong Kong and the manufacturing factory is set up in ZhuHai. We not only provide high quality products but also provide the total solutions on medical accessories that solve existing issues in the market. We are specialized in providing R&D, Manufacturing, Sales and Marketing services for our business partners.

Our factory is ISO certified and most products are CE and FDA approved. With our foreign trade experience, we are more confident to serve our clients with **Safety, Innovative, Best Quality and Excellent Performance** products and services.

CeroFRICT

CeroFRICT is a brand of disposable endoscopic accessories which are manufactured by SML Med-Tech Solutions Limited.

The medical accessories of CeroFRICT are not the traditional products. They have **New Design and Technologies** which solve the market issues to provide the **Better Customer Satisfactions**.

HYGIENE

Infection Prevention

Infection Control is the number one priority in hospitals and doctors' practices. It provides protection against the transmission of germs and prevents infections in patients, doctors and nursing staffs.

As one of the manufacturers of medical devices and accessories, we are very conscious of our responsibility towards our business partners and also the patients. For this reason, we would like to provide a perfect **Disposable Endoscope Accessories**.

Endoscope Disposable

Why NEW Generation CeroFrict Disposable Valves ?

CeroFrict improves the **Performance** of the Disposable valves set. It makes the operation procedures much **Safer, Better** and **Easier**.

Suitable for Olympus, Pentax and FujiFilm Endoscope.

Suction Valve

CeroFrict Suction Valves offer the following benefits:

- Minimize cross-contamination concerns
- Prevent clogging and jamming
- Prevent auto-suction
- Provide different hand feeling and operation experience
- Offer compatibility with Olympus, Pentax and Fujifilm endoscopes

For Pentax

- Traditional Hard Button
- Stable Hand Feeling

- Soft Cap Protection Button
- Excellent Hand Feeling
- Remains Hard Cap Stableness

- Soft Cap Protection Button
- Super Light Hand Pressing
- Remains Hard Cap Stableness

For Olympus & Fujifilm

- 1st Generation Mechanism
- Excellent and Precise Shaft

- 2nd Generation Mechanism
- Protect Endoscope and Prevent Scratching

Air/ Water Valve

CeroFrict Air/ Water Valves offer the following benefits:

- Soft materials provide better hand feeling
- Smart control with high quality materials
- Prevent clogging and jamming

Biopsy Valve

CeroFrict Biopsy Valves offer the following benefits:

- Excellent air-tight
- Prevent water leakage that avoid cross-contaminations and infections in patients, doctors and nursing staffs

Auxiliary Water Connector

CeroFrict Auxiliary Water Connector offer the following benefits:

- Easy and tight connection design
- Prevent water leakage that avoid cross contaminations and infections in patients, doctors and nursing staffs

Pentax

For Pentax 90/ i10 Series GI Endoscopes

Suction, Air/ Water, Biopsy Valves, Auxiliary Water Connector

CeroFrict Disposable Polyp Trap

Safety Lock

Prevent
Water Leakage

Prevent
Air Leakage

Prevent
Cross-Contamination

Endoscope Disposables

Why CeroFrict Polyp Trap ?

CeroFrict Polyp Trap fulfills different needs in the operation procedure. It is **Quality** product to effectively **Capture**, **Collect** and **Reduce** the contamination of the samples.

Single Chamber Polyp Trap

CeroFrict Single Chamber Polyp Trap offer the following benefits:

- Precise product design to prevent water and air leakage
- Single-use device minimizes the risk of cross-contamination
- Structure with user-friendly design, on Trap Body and Cover
- Quick visual verification of polyp specimens

Precise Air Tight

- Minimize water and air leakage during operation
- Enhanced safety to prevent the contamination

Flip Cover

- Non-Screwing one-click open and close cover
- Better efficiency during operation procedure

“Click and Go”

- Excellent and precise hand feeling and click sound when rotate to chambers
- More effective to ensure the right position

Polyp Protective Cover

- Ensure polyps remain inside the filter
- Better experience to collect polyps

Polyp Trap

For high quality clinical needs of polyp retrieval

Single Chamber
Polyp Trap (Non-Sterile)

SML004-PY01 40 pcs/ Box

4-Chamber
Polyp Trap (Non-Sterile)

SML004-PY02 25 pcs/ Box

Single Fast Access Chamber
Polyp Trap (Non-Sterile)

SML004-PY03 25 pcs/ Box

CeroFrict Disposable Bite Block

Softer Bite Plate

Better
Dental Protection

Excellent
Patient Comfort

Endoscope Disposable

Why CeroFrict Bite Block ?

CeroFrict Bite Block designed with a special and softer bite plate that provide more comfortable and protection during operation procedures.

With or without dental rim.

Bite Block

CeroFric Bite Block offer the following benefits:

- Structure with **patient and dental concerning design**
- Soft woven strap for better patient comfort
- Large and flexible openings for better protection, easy operation, convenient manipulation
- Latex free
- Elastic strap with adjustable length (from width 3.5cm - 0.6cm)

Malleable Frame

- Large and Flexible Opening
- Easy Operation

Silicon Dental Rim

- Better Comfort
- More Protection on Teeth

Contoured Edge

- Contoured Edge
- Greater Patient Comfort

Tailor Made Shape

- Will not block the nose of patient
- Fit for different needs

Bite Block

More comfortable and protection during operation procedures

Bite Block (Small Face) with Strap and Dental Rim
 (Adult, Calibre: 27mm x 21mm, Non-Sterile)

SML005-BB01 50 pcs/ Box

Bite Block (Large Face) with Strap and Dental Rim
 (Adult, Calibre: 27mm x 22mm, Non-Sterile)

SML005-BB02 50 pcs/ Box

Bite Block with Strap and Dental Rim
 (Pediatric, Calibre: 19.5mm x 16mm, Sterile)

SML005-BB03 50 pcs/ Box

Bite Block with Oxygen Pipe, Strap and Dental Rim
 (Calibre: 25mm x 21mm, Sterile)

SML005-BB04 50 pcs/ Box

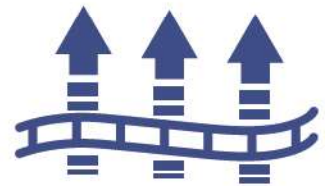

CeroFrict Disposable Tip Protector

One for
Different Size

Open Design
Better Drying

Soft
Protective Material

Endoscope Disposable

Why CeroFric Tip Protector ?

CeroFric Tip Protector prevent distal tip damage of flexible endoscopes during the storage and transport. Features with a simple and convenient design.

One Tip Protector to fit many types of flexible endoscope.

Tip Protector

CeroFrict Tip Protector offer the following benefits:

- **High Compatibility** design is compatible for different size of distal tip of flexible endoscopes.
- Minimize contact with other objects to prevent cross-contamination.
- Enable effective drying and airflow with an open design.
- Single use/ disposable design.

High Compatibility

- Suitable for different endoscope
- Fit for equipment with diameter from 2.5mm to 14mm

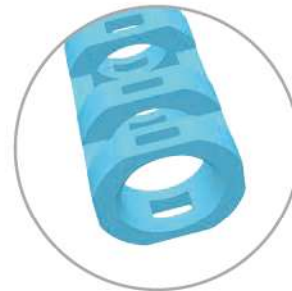

Soft Protective Material

- Effective absorb damage
- Fully protect distal tip

Open Design

- Better channel and distal tip drying
- Prevent cross-contamination

User Friendly Shape

- Easy placement and removal
- Minimal contact on endoscope

Tip Protector

Protective barrier around the distal tip of flexible endoscopes

Tip Protector
(Non-Sterile)

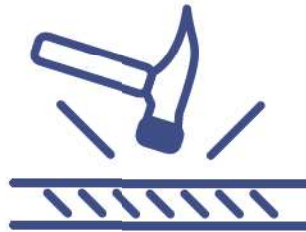

SML007-TP01

CeroFrict Protective Liner

Cost Effective

High and Tough
Quality

Easy to Install

Endoscope Disposable

Why CeroFric Protective Liner ?

CeroFric Protective Liner is designed to provide more safety and prevent cross-contamination on patients and staffs.

Efficient clean and transport of medical accessories.

Protective Liner

CeroFric Protective Liner offer the following benefits:

- **Cost Effective** with **Easy** to install design.
- Prevent cross-contamination during transporting medical accessories and devices.
- **High Quality** and **Tough** material.
- Sterile and single use.

Easy to Install

- Suitable for protecting medical devices and accessories.
- With two size to fit for different tray
- Tight-Lock design to ensure firmly cover the tray

Protective Liner

Better protect and prevent cross-contamination during operation procedures

Protective Liner (Set with Clear, **Clean** & **Contaminated**)
 (64cm x 53cm, For Large Transportation Tray)

SML011-PL01 60 pcs/ Box

Protective Liner (Set with Clear, **Clean** & **Contaminated**)
 (42,5cm x 56,5cm, For Small Transportation Tray)

SML011-PL02 60 pcs/ Box

Reusable Transportation Tray and Lid

SML011-PL03 1 pcs/ Box

CeroFric Distal Attachment

Why CeroFric Distal Attachment ?

CeroFric Distal Attachment is designed to maintain a better field of view during the endoscopic procedure.

Widely used in **EMR, ESD, POEM** surgeries and colonoscopy procedure.

Clear View

- Ensure the clear view

Soft Material

- Protect patients and absorb damage
- Fully protect distal tip

High Compatibility

- Fit for different model of equipment

Distal Attachment

Maintain better view and protect patients during operation procedures

CeroFrict Distal Attachment offer the following benefits:

- Provide more working space for surgery.
- Maintain the good field of view of endoscopic procedure.
- Help to unfold the colon.
- Be aware of distance between tissue and distal tip.
- Protect and ensure safety of patients.

Product Code	Distal Size (mm)	Working Distance (mm)	For Endoscope Model

CeroFric Biopsy Forceps

Why CeroFric Biopsy Forceps ?

CeroFric Biopsy Forceps is designed to sample the tissue in digestive and respiratory tracts during the endoscopic procedure.

With **Oval** or **Alligator Cup**. With or without Spike. With coated or uncoated.

Endoscopy
Disposables

Biopsy Forceps

Sample the tissue in digestive and respiratory tracts

CeroFrict Biopsy Forceps offer the following benefits:

- Special cup off more successful sampling.
- Excellent polishing provide less friction in endoscope working channel.
- Reinforce connection design make excellent and steady performance.

CeroFric Grasping Forceps

Why CeroFric Grasping Forceps ?

CeroFric Grasping Forceps is designed to grasp and remove foreign bodies from digestive tract.

With **Net**, **Alligator Teeth**, **Prongs** and **Basket**.

Endoscopy
Disposables

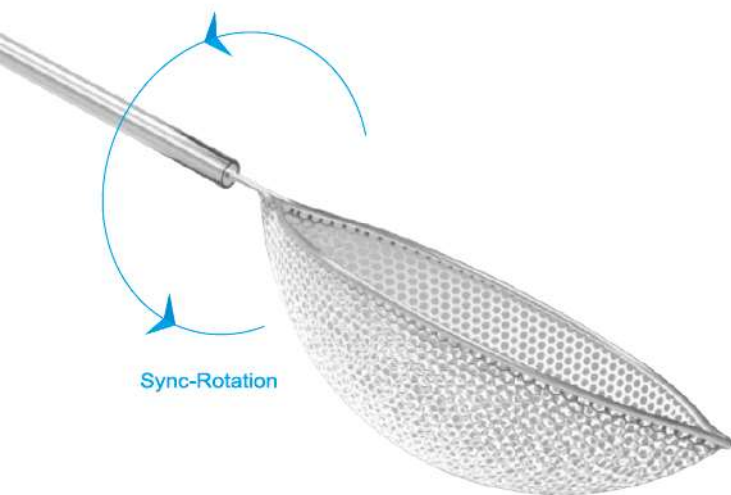

Disposable Grasping Forceps (Net)

Graspe and remove foreign bodies from digestive tract

CeroFrict Grasping Forceps offer the following benefits:

- Exact Sync-Rotation make more convenient.
- Reinforced net design offer more steady performance.

Product Code	Working Channel (mm)	Diameter (mm)	Working Length (mm)	Net Size (mm)

Disposable Grasping Forceps

Remove foreign body from digestive tract

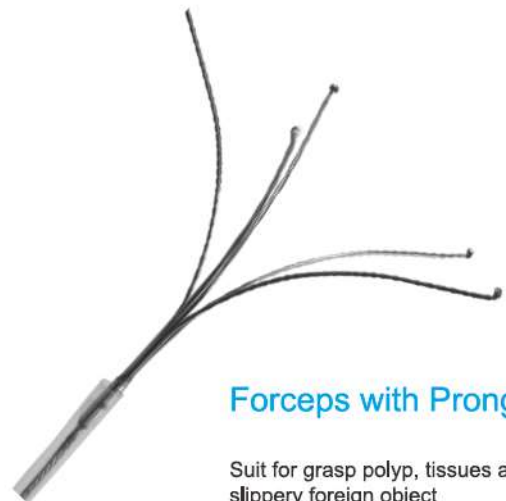

CeroFrict Grasping Forceps offer the following benefits:

- Wide open jaw head help to firmly remove irregular foreign bodies.
- Two heads for different foreign bodies.

Forceps with Alligator Teeth

Suit for grasp flat foreign object

Forceps with Prongs

Suit for grasp polyp, tissues and slippery foreign object

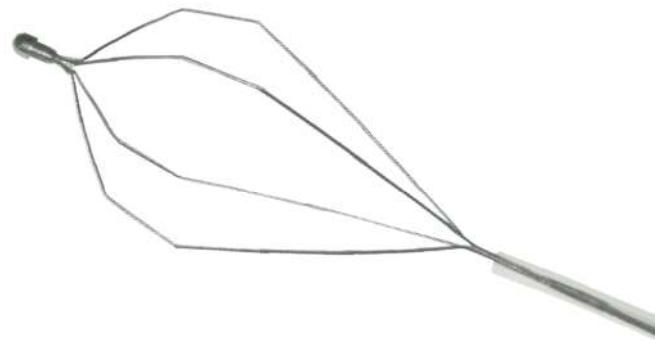

Product Code	Working Channel (mm)	Diameter (mm)	Working Length (mm)	Type

CeroFric Polypectomy Snare

Why CeroFric Polypectomy Snare ?

CeroFric Polypectomy Snare is designed to remove lesions in digestive tract, even in difficult positions.

Endoscopy
Disposables

Disposable Polypectomy Snare

Cut redundant tissue and polyps in the digestive tract

CeroFrict Polypectomy Snares offer the following benefits:

- Strengthened medical braided wire provides the smooth and precise cutting and electric coagulation.
- Loop rotate ensures highly efficiency and convenient clinical operation.
- Standard power connection, compatible with all main high-frequency devices on the market.
